Shooting people in Peru is a pastime, and highwaymen have it all the year round, but a correspondent of the New York Tribune tells how he was surprised by a band of robbers and how he outwitted them. Having just eighty-five cents in his pocket, he rode out of Lima one morning, armed with a tooth, but unexpectant of robbers. About a mile from the city he was suddenly met by four men, and just at the same moment ten more appeared in sight. One of the number demanded his money, or his life. Pretending to search for his funds he drew a dagger and stuck the highwayman through the head, and spurring up his mule got out of their range, halted, drew his seven-shooter and dispatched four others and then made tracks for Lima, from whence he sent policemen to secure the five corpses.

THE MAINE COLONY IN PALESTINE.—The Atlantic Telegraph announces the arrival at Jaffa of the small Colony from the State of Maine, whose intention it is to make a settlement in the Holy Land, with sanguine expectations of great success in laying anew the foundations of prosperity in that country. The American missionary, Mr. H. H. Jessup, writing from Beirut, Sept. 3, thus alludes to the movement:

We are all distressed at the news of the coming of a colony of Americans from Maine to settle at Jaffa. The Consul at Jerusalem has written to Mr. Seward to dissuade the deluded people from such an insane undertaking; but they will not be dissuaded. Nothing less than the sacred soil will satisfy them. They will find the Turkish Government suspicious, and opposed to them at every step. Once outside of Jaffa garden the plain is frequented by the Bedouins, and they will find the Holy Land too hot for them in more senses than one. It seems that that sober reason could not have reached them. I have noticed advertisements of the scheme in the papers from time to time, but regarded it as a hoax. We now hear they are coming. May the Lord have mercy on them!

An accurate account of the visionaries who have made similar raids on the Holy Land during this century, either as individuals or in companies, would be one of the most astounding books ever written. But this down-east attempt to get further east bids fair to cap the climax.

THE APPLE CROD IN NEW HAMPSHIRE.—The Concord (N. H.) Democrat says that the crop of apples in the southern and southwestern sections of New Hampshire this year was very good, and the apples had a good price. The Boston merchants had agents securing all they could find. The Boston agents purchased the larger portion of the crop in Rockland and Strafford counties. They paid five dollars per barrel for first quality and two dollars and a half for the second quality, and paid their bills promptly on the delivery of the apples. Cider apples were bought in this locality at first for forty cents per bushel; fifty cents was afterwards paid, and now they command sixty cents per bushel.

SEVERAL public monuments are in course of erection in Boston. One of the most remarkable is that in commemoration of the discovery of ether. The expense will be \$50,000, which is contributed by Mr. Thomas Lee. Another is an equestrian figure of Washington.

The Louisville Journal says: "The testimonials which Dr. Gardner presents to the public could never have been obtained, except by the display of great skill and learning in his profession. One thing especially commendable in the Doctor's practice is that he will not attempt an incurable disease for the sake of a fee, but frankly tells the patient whether he can be cured or not. We cheerfully recommend Dr. Gardner to the attention of all our friends who may be suffering from diseases of the eye and ear."

The Richmond Times says: "We have no hesitation in saying that Dr. Gardner is the most scientific and successful eye and ear surgeon in this country."
